

PC EVENTS LTD - ENVIRONMENTAL POLICY

PC Events believe the protection of the environment is an integral part of good institutional practice and that it has a duty to satisfy itself that all of its operations are conducted with proper regard for the environment. It is committed to minimising the environmental impact of its operations.

PC Events environmental policy demonstrates its commitment to high environmental standards which aim to minimise or eliminate harmful releases to air, land and water. We will endeavour to meet present needs without compromising those of the future; we will re-use the used and avoid the irreversible.

Towards achieving its environmental objectives, subject to safe practice, PC Events is committed to:

- Avoiding pollution due to emissions, spills, leakages or noise
- Minimising waste arising from its operations and pursuing sound waste management practices
- Actively encouraging recycling and re-use
- Taking positive steps to conserve energy and natural resources
- Using chemicals and products, which minimise environmental damage
- Encouraging high environmental standards from all third parties involved with it, including suppliers and contractors
- Complying with all statutory and local regulations
- Assessing on a continuing basis the environmental impact of all its operations
- Disseminating principles and knowledge of good environmental management to a wider audience
